Explanatory Note

(This does not form part of the notification, but is intended to indicate its general purpose.)

The Government have accepted the proposal of the State Pollution Control Board for revision of consent fee under the Air (Prevention and Control of Pollution) Act, 1981. The consent fee charged by Pollution Control Board is to meet part of the expenditure incurred in the functioning of the Board including processing of consent applications, conducting inspections, complaint investigation, legal action etc. The consent fee was last revised in 2006. The present revision is based on pollution potential of the industries and the rate prescribed is in line with the pattern of consent fee charged by other State Boards in the Country.

The notification is intended to achieve the above object.
